You've probably heard about battery storage dominating renewable energy conversations. But what if we told you there's a game-changing alternative being tested right now in Basseterre?

BASSETERRE, SAINT KITTS, November 29, 2023 (Press Secretary): The Government of Saint Kitts and Nevis and the St. Kitts Electricity Company Ltd (SKELEC) have executed an ...

Ever wondered how a small Caribbean nation is becoming the David among Goliaths in renewable energy? The Basseterre Power Storage Projects aren't just about ...

The construction of pumped storage power stations among cascade reservoirs can improve the flexible adjustment ability of the clean energy base, which also changes the water transfer and ...

Basseterre's revised subsidy framework presents timely opportunities in energy storage deployment. With proper planning and local expertise, developers can leverage these ...

The new Basseterre Energy Storage Array (BESA) can power 8,000 homes for 6 hours during outages. That's like storing enough energy to run every beach bar from Frigate Bay to ...

The project, set on government-provided land in the Basseterre Valley, will include a 35.6 MW solar energy plant along with a 44.2 MWh battery storage facility.

Basseterre, the capital of St. Kitts and Nevis, has taken a bold step toward energy independence with its inaugural grid-scale photovoltaic (PV) energy storage system.

The 35.6 MW solar energy plant and 44.2 MWh battery storage facility will be built on government-provided
