What is the Tuvalu national energy policy (TNEP)?

The Tuvalu National Energy Policy (TNEP) was formulated in 2009, and the Energy Strategic Action Plan defines and directs current and future energy developments so that Tuvalu can achieve the ambitious target of 100% renewable energy for power generation by 2020.

What is Tuvalu's energy supply?

In 2021, fossil fuels accounted for 96 percent of Tuvalu's total energy supply, while solar and other renewable energy sources accounted for 4 percent. Tuvalu's economy is therefore highly vulnerable to fuel prices' volatility, which is why it is critical to find alternative sources of energy for the country's electricity supply.

What does ADB funding mean for Tuvalu?

The ADB project funding announced in November 2019 will increase production of electricity from renewable energy sources from 15% to 32% in Funafuti and from around 70% to over 90% in Tuvalu's outer islands.

The Government of Tuvalu worked with the e8 group to develop the Tuvalu Solar Power Project, which is a 40 kW grid-connected solar system that is intended to provide about 5% of Funafuti ...

We're proud to share the success of a recent milestone project in Tuvalu, delivered through a strong collaboration between Sulani Green, Electrify Energy Monkey, and Solar Fiji. ...

The Tuvalu Electricity Corporation (TEC) on the main island of operates the large power station (2000 kW). Funafuti's power station comprises three 750 kVA diesel generators with 11 kV ...

As part of the Pacific Islands Green Energy Plan, Tuvalu urgently needs a cost-effective, low-carbon, and efficient energy solution to address infrastructure constraints and improve energy ...

As part of the Pacific Islands Green Energy Plan, Tuvalu urgently needs a cost-effective, low-carbon, and efficient energy solution to address ...
